

DIGNEO MOORE HOUSE

PROJECT:

This State and National Register Property, dating to 1911, was constructed by one of the first families of Italian masons to immigrate to New Mexico.

CLIENT:

privately owned

SCOPE OF WORK:

Crocker Ltd cast new facings for the badly eroded quoins based on a molded impression. The facings were then attached using compatible materials and tiny stainless steel pins. On completion, all of the cement elements were lime-washed to match the original.
