

PITCHFORK RANCH

PROJECT:

Otto Franc established Pitchfork Ranch in the Greybull River Valley in northwestern Wyoming in 1878. At its peak, the ranch encompassed over 300,000 acres. The adobe ranch house was one of the first structures on the property.

SCOPE OF WORK:

Crocker Ltd was retained to stabilize the long-vacant structure and repair eroded adobe walls. In a second phase of the project, mud and lime plasters will be applied to match the original materials.

CLIENT:
privately owned
